## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 5/2/08 have been fully considered but they are not persuasive. Applicant argues that the Suzuki reference does not disclose a metal layer between the substrate and first layer. However, the reference does disclose a metal reflective layer between the second substrate (substrate opposite to the light incident substrate) and dielectric layer. See col. 11, lines 16-31. Second, applicant argues that the Hosada patent does not specify that the recording layers are reflective. However, the materials used for the recording layers are phase-change materials. By definition, these are materials which change between amorphous and crystalline states when recording and the difference in reflectivity of the amorphous and crystalline states are detected as recorded signals. Therefore, the materials are reflective.

The rejections over US 4,477,819 and US 5,733,623 and US 6,365,256 are withdrawn.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-23 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by US 6,033,752.

See previous Office Action and response above.

Claims 1, 8-12, 14, 16-18 and 20-23 are rejected under 35 U.S.C. 102(b) as being anticipated by US 6,841,218.

See previous Office Action and response above.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
